

SPECIAL PANEL CASES FOR
28 March 1968 MEETING

SP No. Date Submitted Evaluations and Conclusions

✓ 68-105

9 October 1967

*Thank you
Ltr. New
man. encourage
for new ideas.*

Evaluators recommend we decline. Panel Members have reviewed. Recommend a Letter of Thanks to the suggester.

✓ 66-146

3 December 1965

*Great Versatility,
give something else*

TSD recommends \$175 additional to each suggester. *OK'd*

✓ 68-3

27 June 1967

*Eliminates 2 sets of some
+ cutting blades
for use by Technicians*

TSD recommends \$50 award! *do not say interim to suggester*
interim \$50 - ask TSD in a yr for up to \$100

✓ 68-100

11 October 1967

Referred

*Send back
to OL*

recommends award. *25X1A*
says no requirement for such a device *25X1A*
but perhaps suggester should be
rewarded for his efforts in the field.

25X1A

FI *25X1A* recommends QSI. SB says operational potential very high. SB technical officer recommends a one grade promotion, in lieu of any cash award. TSD recommends a \$5,000 award. I recommended Panel Members review and that TSD especially see SB and FI comments. This is certainly the type of achievement that deserves a suggestion award. This audio support specialist may also deserve promotion. (Executive Secretary will bring a listing of past significant suggestion award cases for the Panel's reference).

CA

✓ 68-127

19 October 1967

majoring effect.

~~\$25 award recommended.~~

25X1A

✓ 68-152

16 November 1967

Referred
Improvement on an old design Recorder.
Does not even have a playback feature.
Have not yet decided. No this.
Defer - 6 mos

TSD recommends \$350 - \$450

Executive Secretary believes this rates between Moderate and High and only Local and not above \$300.

*TSD now recommends \$300
after 6 mos.*

25X1A

(over)

Panel thought this a good idea. Not in
a position to accom'd award.

Approved For Release 2001/09/01 : CIA-RDP78-04072R000100050082-7

Rec'd advise to ask C/TSD if he
has any news. I'll be glad to award
supporter if this is in effect.
(TSD has never had an off recorder.
This was first effort to design one
in TSD)
Total cost only \$3.50.

25X1A

SP No. Date Submitted Evaluations and Conclusions

✓ 68-178 22 November 1967

*Defer
Get rather at next Mtg.
FE [redacted] remembering original
Ejection part of device is original.
We have always had this.*

[redacted] marked \$200 - \$300 for intangible benefits, and stated that the annual tangible savings reported by the Station Chief seem valid. TSD recommended award consideration for tangible savings of over \$50,000 reported by the field.

✓ 68-188 13 December 1967

*Refer to OTR for possible
use in their projects. Then
report back on value.*

Evaluators conclude this is not of much value. However, there may be a "triggering" effect that might merit a Minimal Cash Award or Certificate.

For review at SP Meeting.

*disputed TRO. With to commission people who
had experience with current case. Tams.*

✓ 68-261 2 February 1968

Comments: The suggester developed a Field method of gathering intelligence while Countering Communist Insurgency. The case has been sent to the Assistant Deputy Director for Plans and Director of Training for comment.

Refer to C/TK

The Acting Chief, FE's memo gives much credit to [redacted] for his development. This case appears to require more study and action by Headquarters staffs and divisions. For interim discussion at the March Meeting.
